

Brain Awareness Video Project

Overview:

Research a neuroscience topic and create a brief, original, educational video about the brain or nervous system.

- Visit BrainFacts.org to brainstorm topic ideas. Select 3-5 neuroscience related topics that interest you:
 - 1.
 - 2.
 - 3.
 - 4.
 - 5.

Due: _____

- Write a short paragraph about each of your above topic ideas. Why does this topic interest you? Why is it important? Provide some background information.

Due: _____

- Write a script and create a story board using the attached template. The video can be no longer than 5 minutes, but no shorter than 1 minute.

Due: _____

- Prepare a bibliography using the MLA, APA, or Chicago/Turabian format. Select at least five scientifically vetted sources.

Due: _____

- Work with a neuroscientist to review your work. Use the [Find A Neuroscientist](#) program on *BrainFacts.org* to work with a neuroscientist remotely via email, skype, phone, etc. Provide proof of review process, i.e. print out e-mails.

Due: _____

- Present your video to the class.

Due: _____

Points possible: _____
